

## BIBLE STUDY SHEET- ORIGINS

“ A Scriptural rationale pin-pointing the importance of Origins, and this issue’s priority for the Church.”

### 1) Romans 1:20

Here God’s Word states that the Physical creation necessarily proves the existence of a Creator. Not only does the physical universe provide the evidence necessary to convince the mind of man of God’s existence, but also reveals His character and attributes.

### 2) Mark 10: 6-8 (context: v. 2-9)

This scripture exemplifies how Jesus used the Genesis creation account as foundational truth in His teaching. It has been stated that Jesus quoted from Genesis more than any book of the Old Testament as recorded in the Gospel Accounts. (Ken Ham, The Genesis Solution.)

### 3) Luke 16:31 (context: v. 19-31)

Here Jesus equates a person’s acceptance of the writings of Moses with his belief in the resurrection from the dead. If the creation account given in Genesis is doubted or rejected then the individual’s conviction regarding Christ’s resurrection is also questionable. Note: The resurrection of Jesus Christ is the very foundation of New Testament Christianity, as well as the individual’s personal salvation!

### 4) II Corinthians 10:5-7

In this scripture text we, as the Lord’s servants, are commissioned to “destroy speculations and every lofty thing raised up against the knowledge of God. (NAS) The theory of Evolution is such a speculation, which has definitely been raised up against the Bible as absolute Truth and God’s Son Jesus Christ as Savior. The Church must diligently lift up the creation model of origins as given in Genesis.
